Development of CAD products such as Tribon, AM, E3D, PDMS, and SM3D as well as design IT and related programs

01 Modeling automation

02 Drawing automation field

03 Development of design support software
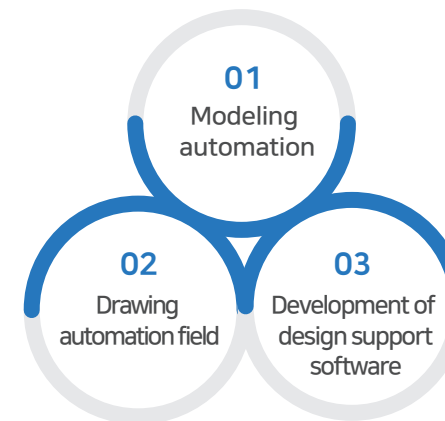

01
· Automation of hull outfitting modeling
· Simplification and automation of outfitting modeling
· Modeling information extraction
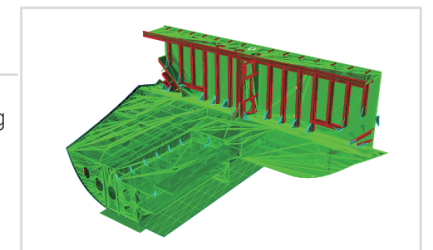

02
· Outfitting drawing automation
· Hole plan program
· Cable routing program

03
· Drawing distribution management software
· Design support such as time management

◈ Company Overview

Company Name
DKSoft Co., Ltd.

CEO
Lee Ki-Taek

Business Areas
· Development of CAD programs for shipbuilding and offshore plant design
· CAD program operation and consulting for shipbuilding and offshore plant construction

Headquarters
#201, 150, Bugogoncheoncheon-ro, Geumjeong-gu, Busan, Republic of Korea

Phone
TEL. +82-51-818-6747
FAX. +82-51-818-0566

Organization
Development Team / R&D Team

◈ History

2015
04 Establishment of DKSoft Co., Ltd.
